

Star Base

Making Humans a Multiplanetary Species!

WHITEPAPER

www.starbasecoin.org

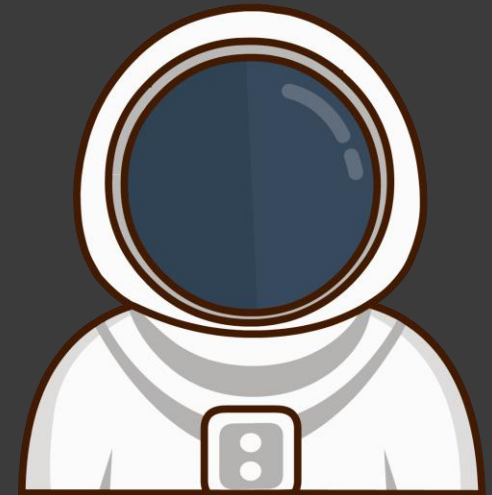

INTRODUCTION

Star Base Coin launches in November 2021 and is a unique community cryptocurrency. Star Base is decentralized and its mission is to bring cryptocurrency to ordinary people who love space, while also helping and fulfilling ordinary people's dreams of space travel.

Star Base is built on the binance smart chain, so blocks are 10 times faster and gas costs are lower.

It is a new cryptocurrency organized and bred by former employees of SpaceX. Star Base intends to create the world's largest backer of SpaceX and Starship Base through community consensus to help SpaceX grow to get more people's support and money to use to launch rockets and travel to space.

He is a static reflection of hyper-deflation that rewards holders, so more Star Base coins are automatically added to your wallet with each transaction.

01 Abstract

starbasecoin was born on November 3, 2021 with the goal of becoming a purposeful decentralized meme project. A decentralized meme project with a purpose. With a serious mission, Making Humans a Multiplanetary Species! and bringing cryptocurrency adoption into the mainstream. New concepts such as rewards, Starship NFTs, decentralized exchanges, and space tourism tickets. Bringing cryptocurrency adoption into the mainstream with new concepts such as rewards, NFTs, decentralized exchanges and space tourism tickets on our website. Star-based Swaps We are one of the first commemorative coins to offer real-time decentralized swaps. Launch directly on our website. Starship NFTs Our biggest project in the works is our NFT marketplace. We will allow users to create and buy/auction their own NFTs, and plan to allow users to donate a percentage of their money to help SpaceX and Elon Musk. SpaceShipTickets When we reach \$10 billion in market cap, we will draw some holders to become, on a SpaceX Dragon spacecraft, a trip to space.

The Binance Smart Chain (BSC) was developed as a means of utilizing SOLIDITY-based smart contracts that are far faster and more efficient than other competing chains. With decentralized exchanges on BSC offering lightning fast exchanges and extremely low fees, BSC has started to become one of the most widely used blockchains for decentralized finance (Defi). BSC uses a token protocol called BEP-20, developed by BinanceTeam. Known for its 5-second block speed, it is much faster than the 1-minute block speed of doge. This article compares the block speeds.

The Binance Smartchain has the advantage. It is a proprietary blockchain, which will provide security for all users and developers. Its native dual-chain interoperability will allow cross-chain communication and scaling of high-performance dApps that require a fast and smooth user experience. It is EVM compatible and will support all existing ethereum tools, as well as faster and cheaper transactions. Its on-chain governance with proof of Staked Authority consensus, built on top of 21 validators of verified transactions, will provide decentralization and enable a large community participation.

04 Ecosystem

Community-Powered

05 Star Base Protocol

Star Base Coin uses 3 simple functions. Reflection + Charity Wallet + Burning. In each transaction, a 3% fee is charged.

1%

1% fee = redistributed to all existing holders

1%

1% of the fee will be sent to Charity Wallet to help the community with future donations

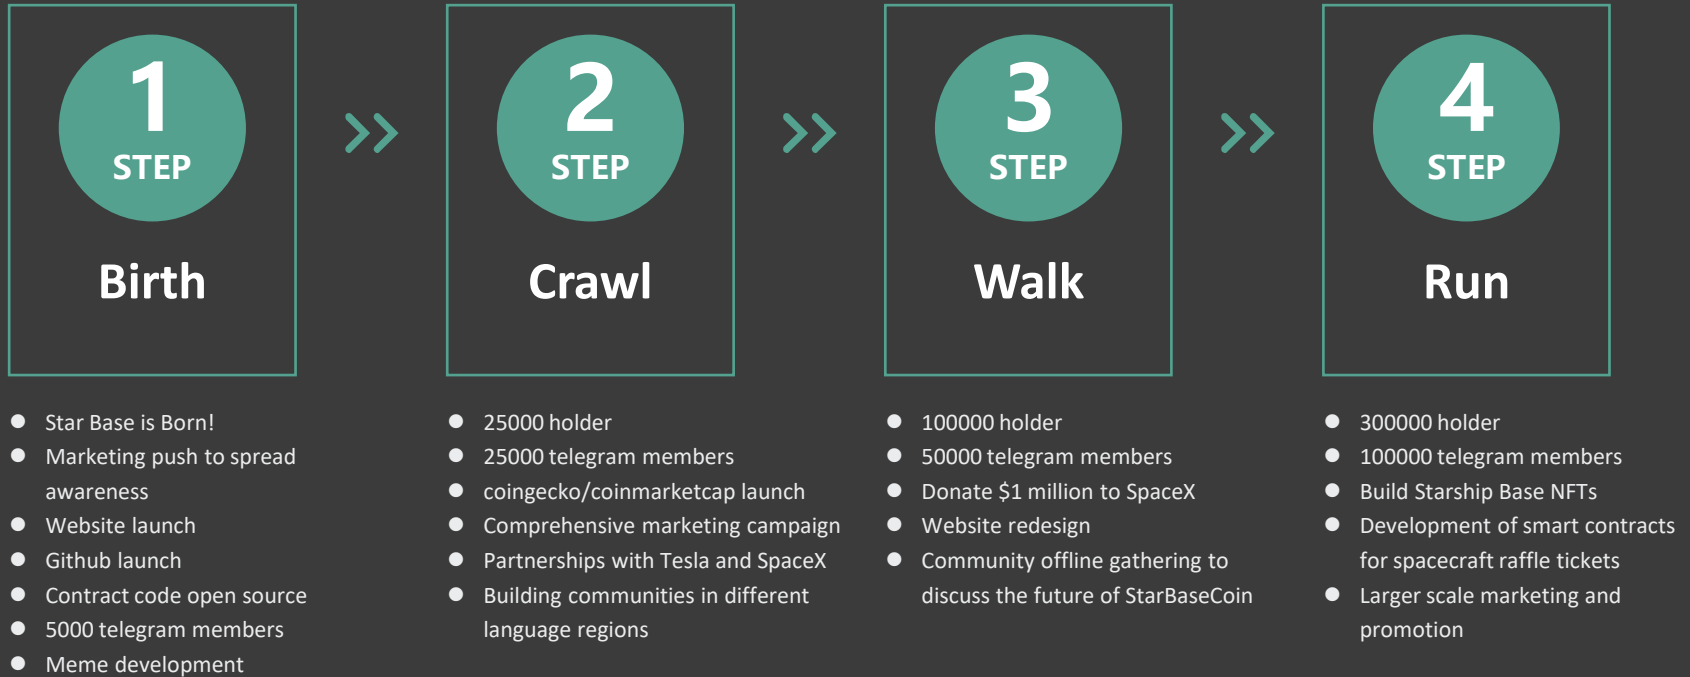

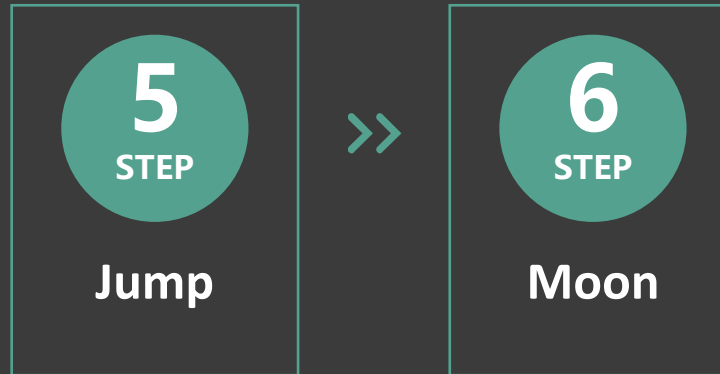

1%

40%+ of the total supply has been burned so far
so 40%+ of the 1% redistributions are burned
with every transaction.
